

Ilya BOGAEVSKII

IDs:

- ORCID: 0000-0001-9039-1479
- ResearcherID: AAH-9957-2019
- Scopus Author ID: 57581570800
- Google Scholar: Ilya Bogaevskii

E-mail:

ibogaevsk@gmail.com

Research Areas:

- singularity theory and its applications
- sub-Riemannian geometry, optimal control, optimization, variational problems
- mathematical physics of graphene, wave propagation, semi-classical approximations
- shock waves in gas dynamics, viscosity solutions of PDE, differential inclusions
- dynamical systems and bifurcations, implicit ODE
- convex analysis and geometry
- mathematical problems of image processing and computer graphics

Education:

- 2019 **Doctor of Sciences:** Physics and Mathematics
Vladimir State University, Russia
Thesis title: *Fronts of stratified Legendrian submanifolds in problems of differential equation theory and optimization*
- 1990 **Candidate of Sciences (Ph.D.):** Physics and Mathematics
Lomonosov Moscow State University, Russia
Thesis title: *Legendrian singularities and their transitions in Hamiltonian systems*
Thesis advisor: V.I. Arnold
- 1986 **M.S.:** Mathematics, with Honours
Lomonosov Moscow State University, Russia

Professional Career:

- Full Professor, Faculty of Mechanics and Mathematics, Lomonosov Moscow State University, Russia, 2019–present
- Docent (Associate Professor), Faculty of Mechanics and Mathematics, Lomonosov Moscow State University, Russia, 2006–2019
- Senior Research Fellow, Scientific Research Institute for System Analysis of the Russian Academy of Sciences, 1997–present
- Docent (Associate Professor), Independent University of Moscow, Russia, 1997–2009
- Visiting Research Fellow, The University of Aizu, Japan, 1995–1996, 1998–1999
- Docent (Associate Professor), Department for Higher Mathematics, Moscow State Forestry University, Russia, 1993–1995
- Senior Research Fellow, Sophus Lie Centre, Moscow, Russia, 1991–1993
- Research Fellow, All-Union Correspondence Institute of Civil Engineering, Moscow, Russia, 1989–1991
- Postgraduate Student, Lomonosov Moscow State University, Russia, 1986–1989

Teaching experience:

Lomonosov Moscow State University

Ordinary Differential Equations (lectures, seminars, exams), 2006–2022
Various special courses and seminars, 2006–2022

Higher School of Economics / New Economic School (Invited Professor)

Optimal Control and Optimization (lectures, seminars, exams), 2014

Independent University of Moscow

English: Program “Math in Moscow”, mccme.ru/mathinmoscow, 2003–2009
Topology (lectures, exams), 2009
Various special courses, 1997–2004

The University of Liverpool, UK

English: Discrete Mathematics (lectures, exams), 2008
English: Representations of Finite Groups (lectures, exams), 2008

Moscow State Forestry University

Ordinary Differential Equations (lectures, seminars, exams), 1994–1995
Calculus, Functions of Complex Variable (seminars), 1993–1994

Invited Talks at Conferences (last 6 years):

- International Conferences on Differential Equations and Dynamical Systems, Suzdal, Russia, 2018, 2020, 2022
- International Conferences “Days on Diffraction”, Saint Petersburg, Russia, 2020, 2021
- Workshop “Geometric and Quantum Control”, Sirius University, Sochi, Russia, 2021
- International Conference “Special functions and semi-classical approximation”, Luminy, France, 2020
- 2nd MSU-PkU International Workshop in Geometry, Mathematical Physics, Statistics and Related Topics, Moscow, Russia, 2019
- International Conference “Semi-classical and Geometric Asymptotics in Mathematical Physics”, Toulon, France 2018
- International Conference “Geometric and Algebraic Singularity Theory Goo Ishikawa 60”, Będlewo, Poland, 2017

The number of all invitations to international conferences: ~50

Organizing Conferences and Seminars:

- Program Committee Chair, *International Conference “Singularity Theory and its Applications in Differential Equations and Differential Geometry”*, Moscow, Russia, 2019
- Organizing Committee Member, *International Conference “Moscow Mathematical Society and Lomonosov Moscow State University” dedicated to the 150th anniversary of MMO*, Moscow, Russia, 2014
- Organizing Committee Member, *International Conference “Analysis and Singularities” dedicated to the 75th anniversary of Vladimir Igorevich Arnold*, Moscow, Russia, 2012
- Organizing Committee Member, *International Conference “Analysis and Singularities” dedicated to the 70th anniversary of Vladimir Igorevich Arnold*, Moscow, Russia, 2007

Memberships:

- Board Member and Academic Secretary of Moscow Mathematical Society, 2010–present
- Moscow Mathematical Society Member, 1998–present

Long-Term Visiting Positions:

- Sobolev Institute of Mathematics, Novosibirsk, Russia, 2014
- SISSA, Trieste, Italy, 2011
- ICTP, Trieste, Italy, 2010
- The University of Liverpool, UK, 2001–2002, 2008
- SISSA/ISAS, Trieste, Italy, 2007
- The Observatory of Nice, France, 2001, 2004
- Utrecht University, Netherlands, 2003
- Isaac Newton Institute for Mathematical Sciences, Univ. of Cambridge, UK, 2000
- The University of Aizu, Japan, 1995–1996, 1998–1999
- Department of Mathematics, Harvard University, USA, 1995
- Indian Institute of Science, Bangalore, India, 1992

Grants & Fellowships:

- Grant “*Optimal Control on Lie Groups and its Applications to Computer Graphics, Robotics and Modelling of Vision*”, Russian Science Foundation, 2020–2021
- Grant “*Singularity theory and its applications to differential equations and differential geometry*”, Russian Foundation for Basic Research, 2019–2020, Co-Investigator
- Grant “*Complex and real-analytic singularities of implicit ordinary differential equations*”, Russian Foundation for Basic Research, 2016–2018, Principal Investigator
- Russian Government, mega grant №2010-220-01-077 (*Laboratory of Geometrical Methods of Mathematical Physics, head B.A.Dubrovin*); 2011–2012
- Grant “*Arnold’s School (Singularity Theory)*”, Council of Grants of the President of Russian Federation, Russian Foundation for Basic Research, 1997–2013, Co-Investigator
- Grants on Singularity Theory in Contact and Symplectic Geometry, Russian Foundation for Basic Research, 1994–2010
- Russian–Dutch Research Cooperation, NWO-RFBR, 2000–2002, 2005–2007
- Grants on Bifurcation and Singularity Theory, INTAS, 1997–1999, 2001–2003, 2006–2008
- Leverhulme Fellowship, 2001–2002

Reviewing:

- Izvestiya: Mathematics
- Journal of Dynamical and Control Systems
- Sbornik: Mathematics
- Mathematical Notes
- Proceedings of the Steklov Institute of Mathematics
- Arnold Mathematical Journal
- Moscow Mathematical Journal,
- Journal of the London Mathematical Society
- Bulletin of the London Mathematical Society
- and others.

Non-University Activity:

- Supervising mathematical section of the diofant.ru website which contains problems in natural science for all levels and ages, 2009–2011

Languages:

- Russian (native)
- English (fluent)

Selected Publications:
